EDUCATION

Virginia Polytechnic Institute and State University

Blacksburg, Virginia

Pamplin College of Business

Graduation: May 2028

- B.S. in **Fintech and Big Data Analytics (Quantitative Finance)**
- **Related Coursework:** Intro to Accounting I & II, Calculus I – III, Business Statistics, Microeconomics, Macroeconomics

TECHNICAL SKILLS

Python, SQL, Java, Excel, Tableau, Power BI, R Programming, Pandas, Data Analytics, TensorFlow, Bloomberg, Microsoft Suite

EXPERIENCE

Chirag Patel CPA PLLC | Accounting Intern | Chesapeake, VA

May 2026 – Present

- Prepare individual and corporate tax returns alongside the lead CPA, 10+ filings including S-corp, partnership, and 1040 extensions, identifying \$100K+ in deductions across the client base.
- Executed in-depth variance analysis on client cash flows, synthesizing complex financial data into comprehensive reports that directly supported the development of personalized, data-driven wealth management strategies.

Self-Taught College Barber | Entrepreneurial Venture

December 2024 – Present

- Built a recurring client base of 85–90, averaging 10–15 cuts a week, while handling scheduling, pricing, and relationships.
- Grew the client base roughly 30% through referrals and social media, with no paid advertising.
- Generated \$15,000+ in revenue and retained clients for 18+ months using a steady weekly cadence and tiered pricing.

Arcanium Labs | Co-founder | Chesapeake, VA

August 2024 – May 2025

- Co-founded an AI startup that automated construction cost estimating and raised \$800K in outside capital.
- Earned admission to Microsoft for Startups, which came with \$350K in Azure credits to run the company's AI workloads.
- Led the engineering team that designed and deployed the AI estimating agents for material takeoffs, logistics, and job costing.
- Returned all raised capital to investors and chose to attend college full-time.

PROJECTS

World Cup Prediction Analysis | SQL, Power BI, React, Kaggle, Python

June 2026 – Present

- Used SQL to extract and filter soccer players/tournament data from databases of 50K+ records.
- Cleaned and prepared data using Python, then performed clustering and multiple regression to uncover key patterns.
- Presented Power BI dashboards showing that team chemistry and player valuations were the top contributing factors to technical and sports audiences at Virginia Tech.

Infrastructure & Commodity Intelligence Platform | SQL, Bidirectional LSTM, React, FastAPI, TensorFlow

March 2026

- Built a platform that effectively scores the best physical locations to build large-scale AI data centers, training the model on 34+ real hyperscale sites from Microsoft, Google, AWS, and Meta to learn what makes a location viable.
- Trained bidirectional LSTM models on historical price data to forecast commodity prices across 16 global markets, lifting directional accuracy from 62% to 76% over a baseline regression model.
- Deployed the platform as an interactive dashboard with a what-if simulation engine and an AI chatbot for querying results.

AI Zoning Agent | IBM AI Hackathon | IBM watsonx.ai, Google APIs, NLP

May 2026

- Built a custom, scalable AI assistant that lets non-experts ask plain-English questions about complex local zoning law and get highly reliable answers, successfully cutting overall manual research time by 50–60%.
- Improved overall answer accuracy and contextual grounding by engineering a custom Retrieval-Augmented Generation (RAG) pipeline over local zoning ordinances, deliberately anchoring all LLM outputs in authoritative source documents.

LEADERSHIP & ACTIVITIES

Phi Gamma Nu | Founding Board Member

February 2026 – Present

- Spearheading the launch of a professional business fraternity chapter from the ground up, developing marketing strategies, recruiting members, and establishing fraternity presence on campus.

Pickleball Club | Student Athlete

September 2024 – Present

- Maintained a structured weekly schedule to manage academics, intensive training, and intercollegiate competition travel.

Certifications: Bloomberg Market Concepts, Claude Education, JPMorgan Investment Banking Simulation, HackerRank SQL
